

*Hey everyone!! I'm Jasmine and I have a lovely husband and two beautiful children whom I adore.*

*I first got introduced to Twilight by my aunt and I can tell you it was the best thing that could have happened to me. She told me there was a new vampire book that I must read. I read it and fell in love with the book- I couldn't put it down.*

*I found National Twilight Night when I went to the Twilight forever release party in NYC in November 2014. It was there that I met and befriended LaShawn and a few other members of NTN. I was so impressed to see there was a group of women who loved twilight as much as I did that I immediately joined – no questions asked. NTN has changed my Twilight journey in many ways with a continuation of game nights and prizes. It opened my eyes to love Twilight more.*

*I am a member of the board overseeing the recruitment and membership aspect of NTN, Inc. Within my role I am responsible for ensuring potential members are well informed about NTN and its requirements. My goal for NTN is to see it grow into the potential it has to be a very powerful sisterhood of wonderful people who help each other and others.*
